October 2008

New Catalogue

The new QuadCut Catalogue is now available.

Instead of 4 separate catalogues for each External, Internal, CBN and QuadCutOff, we have now gathered our turning systems in a 50 pages catalogue.

The English edition is now available and can be ordered from our stock. Within a short time we will also be able to provide German, French, Spanish and Italian editions as well.

You will also find the catalogues as downloadable pdf on our website.

Just send your orders to Info@scandinaviantool.se and we will send you your copies.

Best Regards

Yngve Riis
